

WHAT IS E-CHAIN?

It is an online platform and mobile application, through which you are connected to generators directly and can become your own energy supplier!

We use blockchain/AI technology to integrate metering, billing, and compliance to decrease the administration costs for end users!

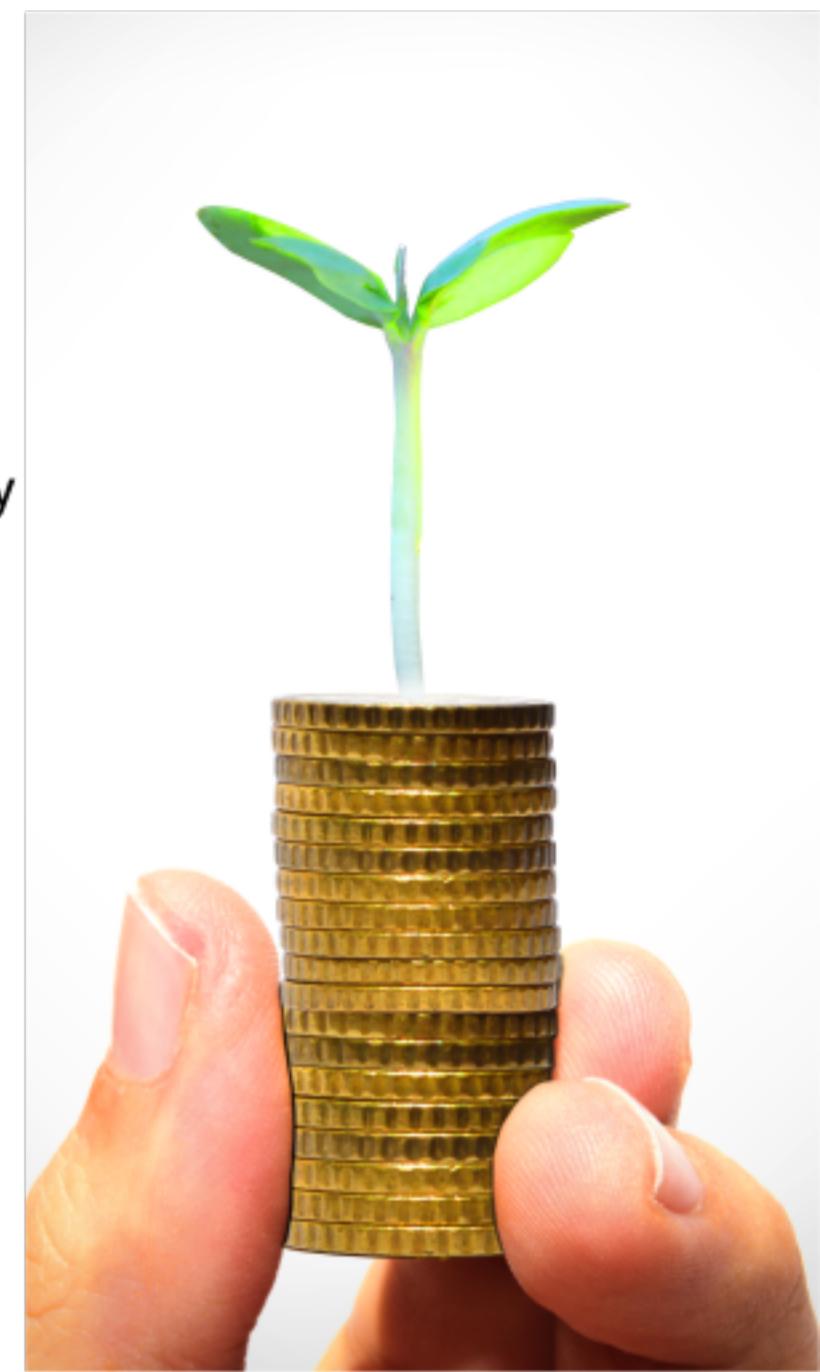

WHO IS IT FOR?

It is for all the properties and premises linked to distribution power networks. That includes households, SMEs, industry units, property sites, public buildings, and any other sites or premises.

HOW DO YOU BENEFIT?

- 1- **Buy your energy directly** from energy generators, mostly renewables.
- 2- **Be your own electricity supplier** and sell your excess energy on e-Chain.
- 3- **Pay as you go** model.
- 4- **Switch to the best deal** available **in less than 10min**.
- 5- **No lock-in contract** or exit charge.
- 6- Own your energy data and have **full data privacy**.
- 7- Fully secured environment.

HOW TO BE PART OF E-CHAIN ?

JOIN OUR FREE TRIAL CAMPAIGN

Register your interest at: <http://urbanchain.co.uk>

We will install smart meter at your home and link it to our platform. You have full control on your data and we guarantee 100% security of our system.

Compare your virtual bill with your current actual bill.

Switch to us if you see savings!

BE PART OF OUR CROWDFUNDING

You can be part of the first blockchain-based energy supply platform by attending the first round of crowdfunding and get a share.

Contact us for more details.

**UP TO 40% SAVINGS FOR BUSINESSES!
UP TO 50% SAVINGS FOR HOUSEHOLDS!**
